

# Sez K Accessori per macchine - Accessories

## Accessorio allineamento coltelli

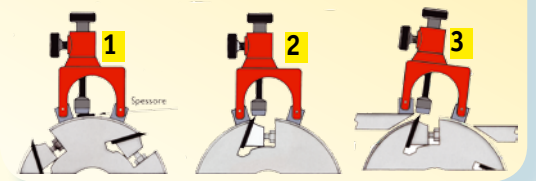

Questo accessorio è costituito da due elementi calamitati che hanno lo scopo di allineare perfettamente i coltelli di un albero per toupie scorniatrici piallatrici e macchine simili con tamburo in acciaio. E' adatto a tutti i diametri di tamburo esistenti perché gli appoggi calamitati hanno un grado di libertà. Viene fornito in un'elegante scatola di legno completo di spessori da mm mm mm per una precisa regolazione della sporgenza del coltello dal tamburo.

## Planer knife setting device

This set is composed of magnetic elements which allow you to align the knives of spindle moulders planing machines or other similar machines with a steel tool holder. The magnetic elements rotate on a joint pin and make this accessory suitable for tool holder of any diameter size.

The magnetic elements are supplied in an elegant wooden case complete with gouges of thickness mm mm mm which serve to adjust the projection of the knife out of the tool holder.

art. 3564

## Tipo KL

### Coltelli pialla serie standard

Coltelli pialla di buona qualità per uso generico. Consigliati a chi vuole risparmiare o vuole fare una sgrassatura su di un legno con possibilità di chiodi o detriti. Adatte per pialle a filo, pialle a spessore e combinate.
